

Compassion Cultivation Training

When faced with difficulty and stress, we can meet life with steadiness and respond from a place of courage and resilience.

Stress and struggle are a natural part of life. We train people and groups to move through life and its challenges with a steady mind, from a place of connection and inner strength.

What does Compassion Cultivation Training (CCT) look like?

CCT is an 8-week course, including:

- Weekly 2-hour class, with lectures, discussions & in-class interactive exercises
- Daily meditation practices that progress from week to week, starting with 15 mins. per day
- At home practices to shift your learning into long-term habits
- Some classes will be video-taped for teaching and learning purposes.

What effects have been reported ?

While students will each have their own unique experience, research has shown CCT may lead to:

- Awareness of happiness and calm
- Acceptance of emotions as they are
- Self-acceptance
- Job satisfaction
- Compassion and caring for self and others
- Openness to receiving compassion from others
